Original Research: Facilitators and Barriers to Clinical Practice Guideline Use Among Nurses

Therapeutic Hypothermia After Cardiac Arrest

Dietary Supplements and Probiotics for Diabetes
Original Research: Facilitators and Barriers to Clinical Practice Guideline Use Among Nurses
By Kathleen A. Abrahamson, Rebekah L. Fox, and Bradley N. Dobbelsing
This study examined survey responses of nurses to learn about their perceptions of facilitators and barriers to the use of clinical practice guidelines.

Therapeutic Hypothermia After Cardiac Arrest
By Jessica L. Ebb, Marilyn Hrvnak, and Jon C. Rittenberger
The efficacy of therapeutic hypothermia is discussed, as well as the indications and contraindications for its use, associated complications, and nursing care specific to patients undergoing this procedure.

Diabetes Under Control: Dietary Supplements and Probiotics for Diabetes
By Laura Shane-McWhorter
An overview of the most popular alternative therapeutic modalities used in the treatment of diabetes.

In Our Community: The Bridge Clinic
By Eliza Newbold, Michelle Schneidermann, and Claire Horton
An NP-founded bridge clinic helps patients transition from the inpatient to the outpatient setting by providing case management, posthospital medical care, and coordination of specialty care.

Community Health Advisors in Diabetes Care
By Caralise W. Hunt and Joan S. Grant
A look at how community health advisors are helping patients with diabetes learn to manage their disease.

Reflections: ‘To the Nurse Who Knows My Name . . .’
By Folasade Koleda
A student nurse learns the simple power of treating each patient as a unique individual.
